

## EKU Baccalaureate & Graduate Nursing

### Academic Standards

All nursing (NSC) courses are **sequential** by semester. Unless permission is granted by the department to enroll in a course out of sequence, a student must complete all NSC courses in a semester successfully with a grade with a grade equivalent of 2.0/C or better in order to enroll in courses listed in the curriculum progression plan for the next semester. With the exception of NSC 232, 242, and 252, a student may NOT enroll in any NSC course without being admitted to the nursing major or receiving department approval. All requests for permission to take nursing courses out of sequence must be made through the Baccalaureate Admission/Readmission Committee.

A student is required to maintain a grade equivalent of **2.0/C or better in all NSC courses** in order to continue uninterrupted in the nursing major. All requests to repeat NSC courses must be made through the Baccalaureate Admission/Readmission Committee.
